Professional Summary

Full-stack developer skilled in React.js, Node.js, Express.js, and PostgreSQL. Experienced in building scalable web applications, REST APIs, and modern user interfaces. Currently developing Cravzo, a subscription-based food delivery platform, while exploring advanced 3D web experiences using Three.js.

Education

Bachelor of Technology (Computer Science Engineering) 2022 – 2026
Greater Noida College, AKTU

Technical Skills

- **Languages:** Java, JavaScript, SQL
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Three.js
- **Backend:** Node.js, Express.js
- **Database:** PostgreSQL
- **Tools:** Git, GitHub, Postman, VS Code, Cloudinary
- **Concepts:** REST APIs, Authentication, Responsive Design, Deployment

Projects

Cravzo – Subscription-Based Food Delivery Platform 2025 – Present
Tech Stack: React.js, Node.js, Express.js, PostgreSQL

- Built a full-stack food delivery platform using a subscription-based business model to reduce restaurant commission costs.
- Developed vendor dashboards for menu management, order handling, and item availability tracking.
- Designed REST APIs and PostgreSQL database architecture for authentication, restaurants, and orders.
- Implemented responsive React frontend with reusable components and optimized API communication.
- Integrated Cloudinary, deployment workflows, and custom domain configuration.
- Led technical development within a 4-member team.
- Live: cravzo.shop

Raushan.online – 3D Interactive Portfolio Website 2026
Tech Stack: React 18, Vite, Three.js, React Three Fiber, Framer Motion, Tailwind CSS, EmailJS

- Developed an interactive 3D portfolio website centered around a Rubik's Cube-based user experience.
- Built a custom 3D cube system with mouse tracking, drag interactions, and animated cube explosion effects.
- Implemented advanced UI features including magnetic buttons, particle systems, glassmorphism effects, and custom cursor interactions.
- Optimized performance using lazy loading, adaptive rendering, code splitting, and responsive design techniques.
- Integrated EmailJS contact forms, markdown blog support, and SEO optimization.
- Live: raushan.online

Experience

Backend and Web Development Intern – CodSoft

2025

- Worked on web application development, API integration, and frontend-backend communication.
- Contributed to debugging, feature implementation, and workflow improvements.
- Applied Git-based version control and software engineering best practices.

Certifications

- Java Full Stack Development Program
- JavaScript Programming Program
- Tata Crucible 2025

Relevant Coursework

Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming

Leadership

- Led a 4-member team in developing Cravzo, a startup-focused food delivery platform.
- Managed frontend, backend, deployment, and production debugging workflows.
